

# SOFAS & STUFF

## **Design Consultant – Islington, London**

Sofas & Stuff is a family-owned furniture and fabric company and one of the leading premium brands in this space. With our head office in the beautiful West Sussex countryside and our own factory in Preston, Lancashire, we have 25 showrooms across England and Scotland - with more to come. Our people are at the heart of everything we do, and when it comes to sofas, their knowledge is second to none.

At Sofas & Stuff, every piece we create is about offering true choice without compromise. With an unmatched range of fabrics and customisation options, we give our customers exactly what they want, ensuring every sofa is made to the highest standards. That's why we opened our own factory — to guarantee the best quality in the industry.

We're growing, and we're looking for passionate people to grow with us. We're expanding our London presence in 2026, with a new showroom in Islington.

We are now delighted to offer a part-time position for a highly motivated, friendly, and enthusiastic individual to join the team as a Design Consultant, working 3 days a week. As a Design Consultant, you would advise customers on choosing their ideal sofa or fabric, which involves patience, creativity, and a great personality. You would have a flair for putting colour schemes together in the Showroom and have a natural instinct to treat customers to the highest level of Customer Service.

An outgoing personality who enjoys talking to people, ideally, you will come from a strong retail background. You must have great communication skills, be well presented, have a positive attitude and, above all, be a people person.

Although previous experience in sofa sales would be a plus, it is not essential as full training will be given. Sound administration skills and computer literacy are essential. Previous experience within an interior design environment would be strongly beneficial. Experience in sales and an ability to work under pressure in a busy environment are essential.

You will have a genuine interest and passion for interior design with some experience and knowledge in the industry. Ideally, you will have experience using interior design software such as Canva in order to create high quality mood boards and visuals for customers.

As we are open every day, the flexibility to be able to work weekends is essential.

To ensure there is a sales presence at all times, this will involve some weekend work as required. Working any 3 out of 7 days.

If you think you can bring something special to our team and would like to work in a relaxed and friendly environment, then we would love to hear from you

**Planned start date:** Early April 2026

**Job Types:** Part-time, Permanent

**Work Location:** In person
